Certificate

Mr. Zsombor Simon
CONTROFLEX GmbH, Hungary

has participated in the seminar

D-EMS 2000
for System Administrators

from 22.06. to 26.06.2009.

During this seminar, the legal requirements, the working principle, the handling as well as the parametering of the Emission Evaluator D-ER 500 were discussed and exercised.

The operation and the various visualisation possibilities of the stored data within the D-EMS 2000 were shown. The installation of the different operating modes, messaging texts, hardware components and user defined screen masks were addressed. The meaning and usage of the available options were explained.

26.06.2009
